Fly-In Huge Success In Stanhope

Last Sunday the Stanhope Council and Airport Committee played host to over three hundred visitors who were flown in to the Stanhope Airport in some ninety aircraft from such diverse points as Windsor, Sarnia, Toronto, Niagara Falls, London, Guelph, Oshawa, to name but a few.

The occasion was the Spring Pilots' Fly-In Barbecue, which will undoubtedly become an annual event.

The purpose was to familiarize the flying population with this area and the facilities available at the Airport. To this end the Fly-In was an overwhelming success in the fact that the Committee was kept busy all day long passing out Chamber of Commerce brochures and maps, and informing the visitors of everything that is available in the Haliburton Highlands for sightseeing and vacationing. A poll of the visitors indicated that a good seventy-five percent of them had never been to the Stanhope Airport or the Haliburton area before and they were mighty impressed.

Gary Agnew, Reeve of Monmouth Township, was present at the affair, and due to his kind co-operation, and that of the Wilberforce Firemen who loaned their big barbecue, about three hundred people were served delicious barbecued sirloin beef, chicken, salad, and Leonard Stinson's home made bread. Councillor Ken Whitney

did the honors ably assisted by County Warden Sinc. Nesbitt and Airport Publicity Director George Pratt.

It is obvious that there is a large potential dollar revenue to be found among the Flying public, so far almost untapped, and the Committee intends continuing in an endeavour to channel some of that revenue into our area. We believe they have made a good start.

Another Fly-In is being planned for August 16th, to which the general public is invited. A number of events will be arranged for their entertainment, such as Aerobatic displays, the Sky-Divers, and a static display by the R.C.A.F.

The Stanhope Council and Airport Committee President, Wes Oliver, extend hearty thanks to all those who helped make the event so successful.

MINDEN LADIES BALL CLUB OPENS SEASON

Anyone interested in playing ball this summer with the Minden Ladies Ball Club please contact Jackie Payne 68 or Mike Jackson 243J by Monday May 11th or attend the meeting at Jackie Paynes' Tuesday May 12th, 7.30 p.m.

U.C.W. GENERAL MEETING

The general meeting of the U.C.W. was held Thursday April 30th in the Church Hall. President Marje Robertson opened the meeting with a reading and prayer. Roll call was taken and minutes of the previous meeting read and approved.

Leaders of the various groups and committees gave reports and business was discussed. It was decided to hold a Spring Tea and bake sale on the afternoon of Thurs. May 21st. There were many items for babies layettes and quilts on display by the Martha group. They will be shipped with the bales later this month. The Martha group conducted the worship service and introduced the guest speaker Mrs. Buttemore. Her topic was Take Courage and was enjoyed by all. Lunch was served by the Lydias.

SCHOOL OF FINE ART PRESENTS SHOW OF WINTER WORKSHOP ITEMS

How did you spend the winter? The answers we know, would be many and varied.

But, would you be interested in seeing what some of your neighbours and friends in the Haliburton Highlands did for hobbies and pleasure this past winter?

If you are interested, be sure to mark these dates on your calendar — May 7th to May 22nd.

Where — The Gallery, the Haliburton Highlands Guild of Fine Arts, Highland Street, Haliburton.

Last Fall, after a visit to the L & M Potteries, Gelert, a Pottery Group was formed, and once a week, a group of ladies met at the Highland Crest Home in Minden, where, under the capable direction of Mrs. Vi. Hudson, they rolled, patted, and formed their clay into many interesting forms. Their equipment and kiln have now been moved but, in the Fall they will be meeting again once a week. Mrs. Shirley Muller will be Convenor of this group.

Have you ever wanted to make your own Christmas Cards — or designs for stationery? This is what the Thursday night group has been doing in the Gallery. Under Mr. Karl Hanke's direction, the group was started, and when Mr. Hanke had to leave, the group carried on by themselves, and the results of their work are most creditable.

They also graduated to a little sketching, some of which will also be on exhibit.

On Monday nights, a group of people interested in writing for pleasure and publication met in the Gallery. Convenor, Mr. Tom Farmer, was instrumental in forming this group, and is enthusiastic about the work they have been doing.

Be sure and drop into the Gallery when you are in Haliburton, Open Monday through Friday, May 11th to May 22nd.

KINSMEN FOUNDER HAL ROGERS ATTENDS KINETTE'S ANNIVERSARY BALL

On Saturday, May 2nd., the Kinsmen Club of Minden held their annual Spring dance and banquet, this years event was to commemorate the Golden Year of Kinsmen and was suitably named the "Anniversary Ball".

The Ball was a formal affair, held at Bonnie View Inn. A Champagne Cocktail hour was held from 8 to 9 p.m., followed by dancing and a buffet at midnight.

The highlight of the evening was the reception line, when everyone had a chance to meet Mr. and Mrs. Hal Rogers, the Kinsmen's guest of honour for the evening. Mr. Rogers is the founder of Kinsmen, celebrating its 50 years as a Canadian service club.

Other distinguished guests in the reception line were the Deputy Governor and his wife, Ralph and Donna White; the Governor and his wife, Frank and Gwen Guy; Roy and Marg Windover, Deac and Marg Jackson, both of whom were found-

ers of the Minden Kinsmen Club; President of Kinsmen, Les and Lorna Hogg; President of the Kinsmen Club Opal and Don Crowe.

Mrs. Joan Fennell Convenor for the evening, gave the opening remarks, welcoming all those in attendance and wishing them a happy evening. She went on to mention that only for Roy Windover and Deac Jackson, founders of the Minden Kinsmen Club they wouldn't be having this evening. She also expressed a word of gratitude to Mr. Lyle McKnight and Eldon Deacon, who had been strong workers over the years in Kin.

Mr. Roy Windover introduced Hal Rogers, who received a very warm welcome. Mr. Rogers expressed his delight in being invited to the Ball and explained to the gathering how Kinsmen was formed 50 years ago.

The Kinsmen Club of Minden was celebrating its 10th year, while the Kinsmen Club is celebrating its 14th year.

TELEGRAM COLUMNIST WRITES FOR PROGRESS

Bob Hawthorne, three-time world casting champion, knows his fishing.

Starting thisweek, Hawthorne's advice to fishermen will be a regular feature in The Progress.

The native of Burlington, Ont. has a trophy case to prove his ability with a rod, whether it's fishing the lakes, rivers and streams of North America or fighting the big ones in the Caribbean, Atlantic or Pacific.

Fishin' Facts is designed to provide the beginner, average or expert fisherman with tips and information. Don't miss FISHIN' FACTS on page 5.

TOWNSHIP OF SNOWDON

20 acres with 2400' frontage on highway 519. Nicely treed, 2 acre pond on property. Good building lots.

TOWNSHIP OF STANHOPE

Excellent building lot 200' X 400'. Level and treed. Close to lake and river. Paved road. Price \$3,000.

Send for our free brochure. Listing property in the Minden and Haliburton areas.

HERE AND THERE

with Fenwick Finch

The problem of renting cottages in opposition to licensed operators can be resolved under the Municipal Act according to Mrs. Kay Lunham who was kind enough to forward me this in-

formation

According to Mrs. Lunham the Municipal Act covers this situation and those interested should get in touch with their township offices and see what can be done.

Mrs. Mamie Kellar 'phones me to tell me that at least one person is helping with the pile of bottles and debris around town. Unfortunately she couldn't find out who he was, but, whoever it was, there should be more like him.

Mame said she noticed this well-dressed gentleman stop his very goodlooking car and pick up some bottles from the side of the road and then deposit them in a nearby receptile.

So, a bouquet to him — he's set a good example, more like him would be good for the community.

Seems like I'm always looking for someone to tell me things I don't know — this one concerns birds. Any bird-watching I've done has been the mini-skirted kind.

The bird I'm interested in was a bright red one, with black wings and tail just slightly smaller than a robin — any ideas?

The main street is under fire again — on two counts. The first has to do with the suggested return of angle parking, with meters. It seems like this would be a good idea. Tying in with this angle parking is the present problem of delivery trucks unloading from the main street and double-parking for quite some length of time. This coupled with the businessmen who park their cars on the main street all day is causing a little discontent.

The other problem is the corner at the end of the bridge. A flashing light should be there — or do we have to wait until there is a good accident to bring us to the realization of it's need.

Sunday morning I watched seven cars come down from the North Road and only TWO of them stopped.

Two other local cars, with knuckle-heads at the wheel, (and I might add lucky ones.) kept going through the intersection at speeds well over 20 miles per hour. It would have been something to see had they both been in the intersection at the same time. It couldn't have happened to a nicer pair of fellows.

To finish off this week here's a piece of "graffito" that was 'phoned into me.

This was noticed in a men's washroom. It said, "To the occupant, the job is not done until the paper-work is finished."

How true this is especially in this age of technocracy.

Drive carefully, be around to enjoy the Spring when it gets here. See you next week.

Fenwick

NEW MUSICAL PRODUCTION

This years production by the Haliburton Highlands Secondary School Glee Club will be the most popular of the comic operas of Gilbert and Sullivan, 'H.M.S. Pinafore'. This famous nautical satire of the English class system of a century ago is set aboard the ship 'Pinafore' at anchor in Portsmouth harbour as it awaits the inspection of the Lord High Admiral of the British Navy, Sir Joseph Porter, K.C.B. (to be played by Mr. Peter Valentine).

The vessel is commanded by Captain Corcoran (Mr. Paul Carpentier) whose daughter Josephine (Miss Candice Bailey) loves a poor sailor (Mr. Ray Johnson). The plot is complicated by the gypsy peddler-woman Buttercup (Miss Mary Lou Wunker) who is secretly in love with the Captain, and the ominous Dick Deadeye (Mr. Jack Stuempel).

The adoring flock of Sir Joseph's female relatives, led by Cousin Hebe (Miss Cathy MacBrien), and the sailors led by the boatswain (Mr. Paul MacBrien) and the ship's carpenter (Mr. Don Hunter) complete the cast.

The production will be directed by Mr. Bill Gliddon and will be presented on Thursday, May 14, and Friday, May 15, on the stage of the Haliburton Highlands Secondary School Auditorium. Curtain time will be 8.00 p.m.

LETTER TO THE EDITOR

April 29, 1970

Dear Sir:

We would like to express our appreciation to you for your co-operation at our car wash Saturday, which with your help was a big success.

We hope we didn't cause you too much trouble by blowing fuses all day and wondered if you still have any water left, after the large amount we used. Also the ad you put in your paper really helped our business. We also hope we didn't inconvenience you too much and that you are satisfied with your car we washed.

Thank you again,
Yours truly,
Mr. Wood and
Grade 8 class.

BUSY WEEKEND

ground here in the Highlands.

This past weekend was a busy one for the local folks, as well as some visitors to the county. First off we had the Ontario Junior "D" finals in Haliburton — there was the fun-filled evening of the Kinette's Anniversary Ball — and thirdly on Sunday there was the spectacular fly-in at the Stanhope airport. We were there taking a few pictures at all the events and ended up our weekend high in the sky, enjoying our first small aircraft ride.

The hockey game I enjoyed, but was somewhat disappointed to see the Huskies go down to defeat. They had a good club and many of the players gave their best. Louie Dummitt played well enough to be a winner but he lacked a few backcheckers, and suffered when his defence were unable to move the puck out of their own end. Craig Stamp was a chap expected to lead this club, but didn't produce. He wore the goat horns when he gave the puck away for the last two Merchant goals. The arm chair coaches couldn't figure why Stamp lugged so much ice time when he was having such a poor series? However, that's hockey, it's easy to play the game from the stands. Let's hope the Huskies bounce back next year and win it all.

In between periods of the hockey, we dashed over to Bonnie View to take pictures of the Kinette's Anniversary Ball, here we had a very enjoyable talk with Mr. Kinsman, Hal Rogers. It was a great privilege to meet this fine gentleman, for it is not very often you meet someone who has done so much for the betterment of mankind. The Anniversary Ball looked like a good time, we are sorry we missed out on the action — maybe next year.

On Sunday we took in the fly-in at Stanhope Airport. This was the first time I had attended a fly-in, and was surprised to find myself having such an enjoyable time. The hospitality given by those in charge, namely: Wes Oliver, George Pratt, Mrs. Louise Watson, Ken Whitney and of course, Reeve of Stanhope Sinc Nesbitt, along with many others who worked on this day, was just out of this world. The entire day was a big success, some 75 aircraft came into Stanhope Airport, from as far away as Windsor. Every visitor was given a warm Haliburton welcome by those in charge.

The outside barbecue was by far the best we have attended with plenty of everything to satisfy hungry appetites.

These hard workers in Stanhope should be congratulated for their foresight and energy they have put into this airport — as time goes on Haliburton County will benefit tremendously.

The highlight of the day was a trip up into the wide blue yonder with Wes Oliver. You think our County is beautiful from Highway 35, you should see it from 1500 feet — it's magnificent!

My family also took their first trip in a small plane — now all dad has to do is buy one — oh well, in this jet age what's a little Piper Cub.

APPLICATIONS DOUBLE FOR SIR SANDFORD PROGRAMS

Applications from prospective day students at the Peterborough and Lindsay campuses of Sir Sandford Fleming College are up almost 100 per cent with a total of 807 received by mid April, according to statistics just released by the College.

Sir Sandford's Director of Admissions, John O. Holt, said the increase could be explained partly by the early clearing of applications by area guidance counsellors, but he added that flow had shown no sign of easing.

Three hundred and ninety-six applications had been received for programs offered in Peterborough, and it is estimated just under 800 will be in by September. Of this number, it is expected about 480 will finally register.

The population at the Peterborough campus, including second and third-year students could reach 780 in September compared to 575 this year.

The temporary quarters on McDonnell street will be strained until January, 1971, the expected completion date of the first phase of the permanent Peterborough campus on Brealey Drive.

Applications for the Lindsay based forest techniques program which has about 210 openings, totalled 411. Last April, 288 had been received.

The greatest percentage increase was in the technical division at Peterborough, which had 85 applications compared to 26.

Although many programs are expected to remain open until August or September, Mr. Holt said the College was closing off applications for the early childhood education program, which had about 80 requests for 20 openings, and has already put forestry applicants on a waiting list.

During 1967, its first year of operation, the College had 235 full-time students at Peterborough and 145 at Lindsay.

New Breed

Speed, Power, Economy. The New Evinrude 60. Outperforms everything in its class.

Two years ago, the Evinrude 55 was first introduced. That was the beginning of the "New Breed" in outboard motors. It was the world's first 3 cylinder outboard with "loop charging" for cleaner combustion and more efficient intake and exhaust circulation. The result was a more compact unit with an amazing amount of extra horsepower . . . and overwhelming success.

Now you can get the same fast, quiet engine . . . computer-improved to deliver

an extra 5 powerful horses. It all adds up to the Evinrude 60. The 1970 "New Breed" outboard that gives you more performance per horsepower.

The Evinrude 60 comes complete with Evinrude's exclusive push-button electro-hydraulic shift, automatic single lever control and cable at no extra cost.

Discover the "New Breed" 60 at your Evinrude dealer. It's another powerful reason why Evinrude stays first by keeping you out front.

FISHIN' FACTS

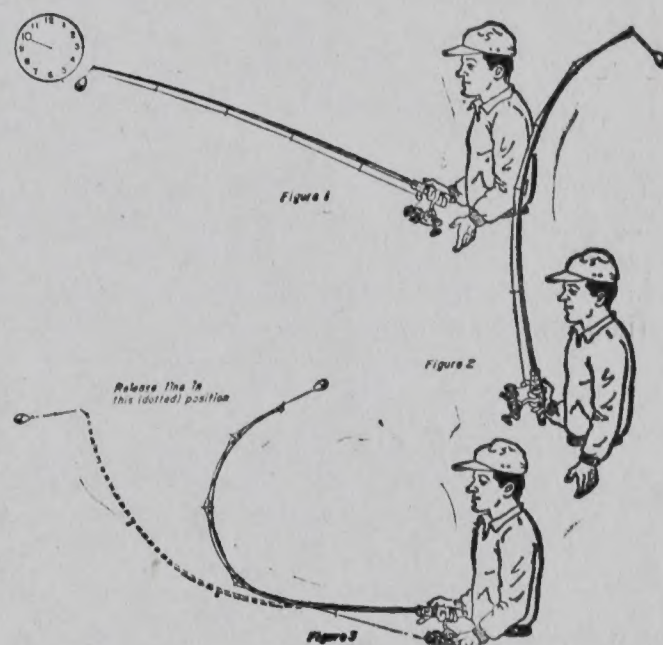

BY BOB HAWTHORNE

THE OVERHEAD CAST

Whether spinning or bait casting, the overhead cast is the most practical and best cast to use in most instances. It is performed in the same manner with either bait casting or spinning equipment, and can be very accurate. Nearly all tournament casters use the overhead cast in competitions as they have found that no other type of cast will produce the precision accuracy necessary in a casting tournament. For practice purposes use a 1/4 oz. practice plug when using spinning equipment, and a 3/8 oz. practice plug when using bait casting gear.

Most anglers when using spinning or casting equipment, make the serious mistake of putting too much arm motion into the cast. Keep arm movement to a minimum. The key to success is to use wrist action only. The other common mistake by the novice is failure to let the rod do the work for you. It is pointless to purchase a good fishing rod if you are only going to wave it around in the air like a wand. You could get the same results using a broomstick. Make that rod bend when you are casting.

The overhead cast is relatively easy to learn. Hold the rod in front of you at the ten o'clock position. Keep your elbow in close to your body. With a flick of the wrist, bring the rod back smartly to approximately the one o'clock position. Without any hesitation whatsoever, bring the rod forward and release the line at the ten o'clock position. Apply more power on the forward cast than you did on the back cast. The important thing to remember is once you have started your back cast, don't stop at all until the cast is completed.

RED CROSS
IS ALWAYS THERE
WITH YOUR HELP

National Forest Week

by Paul Rennick, R.P.E.

Canada has been called a "Forest Nation". Certainly, the trees, wood products, and forestry play a large part in the economy of this great country.

In Ontario, for instance, "for every dollar received by the Department of Lands and Forests directly from forest industry (stumpage dues, etc.) an

additional \$2.09 is received by the provincial government in the form of taxes paid by the companies in the industry and their employees. This amount is raised to \$4.22 when consideration is given to taxes paid by workers supported indirectly by the forest industry."

The foregoing is a quote from the 1968 forest economic study "The Ontario Forest Industry"

by Hedlin, Menzies and Associates Limited.

The Ontario forest industry in 1966 provided direct employment for about 78,000 people who earned \$425 million. When allowance is made for the multiplier effect, it was found that these 78,000 persons directly employed by forest industry, caused employment for 135,000 additional persons in other industries, whose jobs depend on the forest industry.

Outdoor recreation is largely forest land based. The importance of this land use to the people of Ontario, has been recognized for many years, but only recently, has its value been given full attention. Such things as walking for pleasure, hunting, fishing, snowmobiling, canoeing, boating and wilderness experience are now recognized as people "needs" and thus require planning and management to sustain them as an integral part of our forest and lake landscape.

More and more urban people are escaping from their crowded environment for recreational experience and rekindling of spirits to the forest and lake country. Attempts are now being made to express these activities in economic terms so that proper land use planning and management decisions can be made through comparisons with other uses of land.

Forests are given credit for many other benefits such as the protection and storage of water supplies, the rarefaction of air, and the protection of soil — all acting as guards against environmental pollution.

This effect can soon be eliminated by the misuse of woodland areas by individuals, municipalities, and industries.

Ontario's forest land and lake complex as well as the woodlot-agricultural land pattern in Southern Ontario is extremely valuable commercially, ecologically, and aesthetically. All of us should be fully aware of our forest resource and its impact on the quality of life for people of this province.

May 3 to 9 is National Forest Week. It is appropriate that on May 9, a tree planting day will be held to reforest a property recently purchased by the Otonabee Region Conservation Authority and managed for forestry purposes by the Ontario Department of Lands and Forests. Fifty families of the Ontario Campers and Hikers Association, the Peterborough 4H Conservation Club and various members of the Otonabee Region Conservation Authority and their families, will be planting trees. This effort will give these people a better understanding of the importance of Forestry in Ontario.

MOOSE BLAMED FOR ACCIDENT HERE

The Minden detachment of the Ontario Provincial Police reported a one-car accident occurred on Highway 121 near Loon Lake at 9.05 p.m. Thursday of last week, resulting in \$2,300 damage to the vehicle driven by Donald Iles, 42 of Haliburton.

Police said tracks at the scene of the accident indicate a cow moose and 2 calves cut the driver off, causing him to lose control of his car.

Police Constable Mike Maher was the investigating officer.

OBITUARY

SAMUEL JOSEPH NESBITT

Passed away suddenly at Vivian(near Mount Albert) Sat. April 18, 1970, at the home of his daughter Mrs. J. Cryderman Mr. Nesbitt was born and raised in Minden Township son of James Nesbitt and Margaret Little Nesbitt. One sister Mary E. Curtiss lives in North Kingsville Ohio. He was 91 years old.

Mr Nesbitt married Minnie May McKnight August 30th 1899 (she predeceased him March 16, 1968) He farmed all his life, lumbered and was oversear on Minden Township Roads. In his younger years he did heavy manual labour.

Leaving to mourn his loss are Hazel (Mrs Lorne Hepburn) Lindsay, Robert Cecil(predeceased May 1968) Olive (predeceased) Gertrude (predeceased in infancy) Irene(Mrs. A. Parcells Lindsay), Lila(Mrs. J. Warburton Minden) Marjorie (Mrs B. Sage Lindsay) Bruce of Minden, Blanche(Mrs Cyderman) where Mr and Mrs Nesbitt both resided till their death. Mr. Nesbitt suffered two strokes years ago and recovered. Two years ago he had a severe heart attack and since last summer failed in health and was confined to bed since Sept. an invalid but knew those about him and talked moments before he expired.

To those who knew Sam as he was known, he was of a jolly nature and made many friends. He enjoyed his friends and family He will be missed by all especially the family he resided with who will feel the loss and the loneliness of no voice and the vacant chair.

TREE PLANTING FOR FORESTRY PURPOSES

Beginning April 20, 1970 and continuing until the middle of May approximately 1,090,000 trees will be planted in the Lindsay District on 52 private properties.

The trees are planted for forestry purposes and will provide a future benefit such as the production of wood and wood products, wildlife habitat, protection aganst floods and erosion, outdoor recreation, protection and production of water supplies.

The Department of Lands and Forests are grateful to the landowners for their support of this program and their concern for proper land use in Ontario.

BINGO

The Rotary Club of Minden hold Bingo every Thursday evening. Game time is 8 p.m. sharp. 21 games each week, all cash prizes.

ABOUT THE TOWN

With Jeanne Sears

The village welcomes Mr. and Mrs. John Pentney, John, David and Lynne who have moved here from Stoney Creek. Mr. Pentney took over the Crest Hardware on May 4th.

At the L.O.B.A. card party last week winners were for cribbage Anne Thurston, euchre Ruth and Gordon Kellett, the latter also took the lone hand prize. The quilt, on which tickets had been sold, was won by Clara Francis. After the games all enjoyed a social half hour and the delicious lunch served by the ladies.

Several persons are home after holidays, these being Lydia and Angus Coulter, the Dr. Kovals, and Flo and Joe Dollo.

St. Johns League had a bowling party last Sunday with winners being at various times, Hett Green, David Francis, Gladys Kellett, Albert Crego, Nancy Garbutt, Bill Walker, Sylvia Smith, Finn Berry, Bessie Burk, Ruby Francis and Albert Crego.

The Women have done it again — in a second effort this year they are now allowed to join the Canadian Press Club; and why not, if their work is equal with the Mens they were only given their equal rights (for once). The Women have come a long way since they have received the franchise and in many ways their work exceeds that of their male counterparts.

Hint of the week — If you haven't a stand for your new wig, a medium-sized bowl turned over, makes a good substitute.

Mr. and Mrs. Vic MacKay and family of Inuvik North West Territories are enjoying a two month vacation with her father Gerald Finlay.

Do you think this is truefl If your efforts are critized, you have done something worth talking about.

Patients at the local hospital early this week included John Welch, Mrs. D. Prentice, Mrs. S. Crawford, George Tribe, Mrs. Audrey Douglas, Debbie Thomas, Andrew Burk and Mrs. Patricia Howe and baby girl. In Ross Memorial at the moment following surgery is Mrs. Alice Todd.

We note another lucky winner at Rotary Bingo was Bill Hounsell taking home \$25 for a full card.

I like to watch from windows —

There's always something new :

A neighbour walking home from town,

Who stops to chat with you,

And wishes in a wisful voice

That she had such a view.

Edna Jaques.

Real spring weather the past week, not quite as warm, we notice daffodils are out and some fishermen have been having good luck.

Cheerio until next week.

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular feature prepared by the Family Financial Counseling Service of the Avco Delta Corp., P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered in print or by mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

\$\$\$

Dear Mr. Martin:

We have a problem for you to solve. My wife wants to go back to work. We can certainly use the extra money but I don't think it's worth it to the family in the long run. We have two children in grade school. What's your advice?

Mr. J. B.

If you think I'm going to attempt to solve this problem for you, I'm afraid you're barking up the wrong tree. Marriage counselor I am not. As a matter of fact, you pose one of the most complex of all family problems. No, I won't make the decision for you or your wife, but I will offer a few thoughts for you to think about. Then you and your wife should make the decision.

First of all, you must remember that if your wife returns to work, your home life will be changed. For instance, are you ready to pitch in with the housework, maybe even doing the dishes while your wife gets the kids ready for bed. Are you willing to take on other chores — chores which your wife now normally handles like shopping, etc. If you can do these things without feeling that your wife is competing with you by working — then perhaps it will work out.

A couple of other thoughts. What time will the children be home from school? Will someone responsible be there to meet them? What if no one is at home? Where will they go and who will they be with. A babysitter? Remember they cost money.

And how about vacation time? Will your wife's job allow her to take her vacation at the same time as yours. Will her boss recognize the fact that she's a mother first and his employee second?

What about cost? Have you figured out about how much it's

going to cost your wife in order to work? Clothes. Transportation. Lunches. Babysitters. Will her "net income" be worth it? How will it affect your income tax?

These are just a few random thoughts I offer you for your consideration. There may be other problems which I haven't mentioned. But at least talk these over and then come to a joint decision.

WATCH FOR SHOWCASE

Watch the showcase here in Minden at the Post Office and in Haliburton at the Gallery on Highland Street for displays exhibitions, and notices of coming events of interest to all folk interested in Crafts, Hobbies and Fine Art.

The Guild of Fine Arts appreciates and wishes to thank Mrs. Scotty LaRue for her kindness in setting up the Haliburton showcase, and Mrs. Reg Welch for looking after the Minden display.

NOTICE

As of May 8th., 1970, EDWARD J. GARDINER is no longer associated with my office in the practice of law.

DONALD J. FINN,
Barrister and Solicitor,

Haliburton Huskies Lose Title On Home Ice - Saturday

It was a disappointing night, Saturday, May 2nd, when the Haliburton Huskies lost the seventh and deciding game of the Ontario Junior 'D' Finals to the Norwich Merchants 5-3.

There was no question in the minds of over 1,000 roaring spectators that the Merchants had the best team, coming back with four straight wins after losing their first three starts, proved to be worthy Champions.

The Huskies determined to win this deciding game scored the first and only goal in the first period, although they were slightly outplayed. Cam Botting fired this first goal with Woodcock and McElwain assisting.

The Huskies came right back at the 3:27 mark of the second period to take a 2 to 0 lead, Jim Cowan scored this tally with Walter setting up the play. The Merchants started to rally their forces at this point, and showing more speed and determination finally scored at the 7:00 mark. Walt Homick finally beat Louie Dummitt who had kept the

Huskies in the game to this point with several good saves.

The Huskies were able to keep their edge until the 2:38 mark of the third period, when Martin Wylie of the Merchants scored while they were applying the pressure in the Huskies end.

It was evident from this point that the Merchants were the better club. They controlled the play, outskating and outchecking the Huskies, their passing was accurate, and they had very little trouble clearing the puck out of their own end. At the 7:50 mark No. 15 Wayne Longthorne the Merchants speedy center scored on a solo effort from one end of the rink to the other. He stickhandled around one Huskie forward and outskated another, went around the defence and behind the goal to score coming away from the right hand side. At the 15:00 minute mark Frank Menich of the Merchants scored what proved to be the winner, on a drive from just inside the blue line. The Huskies at this point were having trouble getting the

puck out of their own end.

Roger Scheffee scored the last goal for the Huskies at the 14:00 minute mark on a hard drive from 15 feet out. The Merchants came right back a minute later when Gary Swanton scored the clinching goal.

The Norwich fans swarmed onto the ice to congratulate their team on a fine effort and victory.

The Huskies lost the series, not in this game but in the fifth game when the Merchants played poorly, and the Huskies riding three straight wins, thought they could win without an effort. They should have been told that a game is never won until the final whistle.

From all reports the Huskies only lose three players from this years team, making them a strong contender for next season. Condition is the key to success in hockey, and skating is the name of the game — the Merchants had it this year, maybe the Huskies will have it next year.

CIVILISATION

The story of mankind as revealed in art, architecture, music and literature is the subject of the outstanding 13-week color film series, *Civilisation*, starting on the CBC-TV network Thursday, May 14, at 10 p.m. Sir Kenneth Clark, distinguished British art historian and critic, devised and wrote the series, which has won world-wide acclaim, and appears on camera as the expert and witty narrator. Many of the world's great art and architectural treasures are seen in their authentic settings, and here Sir Kenneth stands before the Celtic Cross at the ancient Abbey of Iona, on an island off the west coast of Scotland.

GET READY FOR ANNUALS PREPARE GARDEN NOW

Now is the time to prepare the soil in which annuals are to be planted. The soil, once dug should have organic matter added in the form of barnyard manure or compost at the rate of 50 to 75 pounds per 100 square feet.

Dr. P.M. Harney, Department of Horticultural Science, University of Guelph, says that peat moss is easy to obtain and may often be used instead of manure or compost. Peat should be spread in a layer 1 to 2 inches thick, and worked into the soil. On fine-textured clay soils, a 50-20-10 analysis fertilizer may be applied at the rate of 2½ pounds per 100 square feet. For coarse textured sandy soils, a 50-20-20 analysis fertilizer applied at the same rate is recommended.

Although some enthusiasts grow their own annuals from seeds, says Dr. Harney, many people buy them as seedlings from the local florist or nurseryman. These seedlings will be a couple of months old with well-developed root systems and will often be in bloom or almost ready to bloom. Annuals are very often used as fillers in a flower garden because they bloom in midsummer when the perennials are not flowering.

Once bought, the seedlings should be planted immediately or watered and stored in a cool shady place until planted. Plant carefully, says Dr. Harney, keeping the ball of earth around the roots intact if possible. Water after planting, and shade if the plants show signs of wilting. If the flowers are picked and the plants are not allowed to go to seed they will continue flowering until frost.

To maintain the annual garden in a vigorous condition, apply a 5-10-15 fertilizer at the rate of 2½ pounds per 100 sq. ft. during the latter part of July.

NOW HEAR THIS

by Lorna Rogers

The accent is Canadian in this year's CBC Toronto Festival featuring well-known performers in concert, available free to the public. Begun as a Centennial project, they've blossomed into a regular event in the

Toronto summer calendar, as they have elsewhere in the country's major centres. From the first one, with soprano Lois Marshall at the end of May, until August, the emphasis will be on Canadian music, with world premieres of both Canadian and non-Canadian works.

Norm Symonds, John Beckwith, John Weinzwieg and Harry Freedman are just a few of the composers whose works will be heard. All programs are taped for future radio broadcast.

Radio sports producer Bob Helm has won the Penlens award for national radio coverage of motor sport in Canada for the fifth year running. Not too surprising as Helm is a former racing driver himself. Helm is the man behind the controls for many big events covered by CBC radio sports-Pan-Am Games in Winnipeg, the Canada Games in Halifax, the Summer Olympics from Mexico Expo Baseball, NHL games, the Arctic Winter Games and Sound of Sports. From bullfighting to sky-diving you name it, Helm has covered it.

It may be news to you but Enrich Weiss first began using his stage name in Nova Scotia. Hungarian-born Houdini also used to try out a number of tricks here before performing them in the bigger U.S. market. The master magician and escape artist had many associations with Canada, as the program on CBC Tuesday Night May 12, reveals. Included is an interview with Toddini, who claims to be his grandson.

Morley Callaghan has been writing for more than 40 years, but the wells of inspiration are a long way from drying up. The Molson award winner will read excerpts from a new, unpublished novel, Thumbs Down on Julian Jones, on four successive weeks on Anthology, beginning June 6. And during the week of May 11, Theatre 10.30 features a five-part adaptation of his 1937 novel, More Joy In Heaven. It's the story of a bank robber who becomes an exemplary prisoner and is then paroled. The master criminal unwittingly becomes a respected member of society, but tragedy soon closes in again. The story was inspired by the real-life career of bank robber Red Ryan in the '30s.

In another prison, not long ago, 18 year-old Michael Colahan hanged himself with a prison-issued belt. He had had a history of suicide attempts but through misunderstanding, and possibly even official bungling, he was not protected from himself or society. Concern probes this case which recently made the headlines, on May 13.

Let the Peoples Sing, a series of choir matches organized by the European Broadcasting Union and co-ordinated by the BBC returns for another season May 15. Youth choirs, mixed choirs and equal voice choirs from all over the world compete. Canada's entry is The Tudor Singers from Montreal, conducted by Wayne Riddell. They'll be heard on the first program.

CARD OF THANKS

A very sincere thanks to my friends, neighbours and relatives for cards, flowers, gifts visits and phone calls, I received during my stay in Minden and Toronto General Hospitals. Special thanks to Dr. Koval Dr. Ezrin, nurses and staff of both hospitals, also to my family for their helping hand and thoughtfulness during my stay in hospital, and since my return home. Thank you all kindly.

Lillian Miller
